

LB Type Explosion Proof Electric Girder Crane

● Product Introduction

The LB explosion-proof electric single beam crane is an explosion-proof crane specially designed for explosive environments.

The LB (LBD) explosion-proof electric single beam crane has the characteristics of reasonable structure, beautiful appearance, and strong explosion-proof performance. The whole machine is used in conjunction with HB (BCD) and HBS (BMD) explosion-proof electric hoists, with a lifting capacity of 1-10 tons, a span of 7.5-22.5 meters, a working level of A3-A5, and a working environment of -25 °C to +40 °C.

● Basic Parameter

Capacity	1T-20T	Span	7.5m-28.5m
Lift Height	6m-24m	Working Class	A3
Power source	380V 50hz 3P	Lifting Mechanism	HB/BCD/BMD electric hoist(EX)
Explosion proof grade	Exd II BT4/Exd II CT4
