

MW19 Lifting Magnet for Speed Wier (Coiled Bar)

● Product Introduction

MW19 series, owing to light self-weight, reasonable structure (just contact with 2 points of the bar) is suitable for coiled car. Its magnetic pole is suitable for coiled bar which is of different diameter. The length of coiled bar is important in choosing the right electromagnet. It can be put into operation along length or width direction of electromagnet and multiple units can be used together or separately as well.

Choose normal or high or super-high temperature type according to the material's temperature. If below 150°C choose normal type, between 150°C and 600°C high type, above 600°C but with a limit under 700°C, super-high type .

● Basic Parameter

Model	MW19	Rated Voltage	DC-220V
Overall Dimension	Customize	Duty Cycle	TD-75%
Matching Equipment	Overhead crane, gantry crane, excavator, etc	Handling Material	Metal scraps, steel billets, steel plate, wire rods, etc
