

European Explosion Proof Hoist

● Product Introduction

Explosion-proof electric hoist is a light and small lifting equipment. It has light weight, small size and large lifting capacity. When the factory is filled with explosive mixture, it is a favorable tool to improve working conditions and increase labor productivity under the premise of ensuring safety. It is an essential mechanical equipment for production.

● Product Features

1. Reasonable structure, light dead weight.
2. Favorable performance, accurate and smooth lifting
3. Safe and reliable traveling.
4. Low noise, easy operation.
5. Convenient maintenance, high exchangeability for parts and components.
6. Explosion-proof form is "Exd" .

● Basic Parameter

Model	HB, BCD, BMD							
Lifting capacity(t)	0.5	1	2	3	5	10	16	20
Lifting height(m)	6/9/12/18/24/30 or specified height							
Lifting speed(m/min)	8 (0.8/8)					7 (0.7/7)	3.5 (0.35/3.5)	
Traveling	20							
Power Source	3PAC 380v, 50HZ
